Adobe Data Workbench OPTIMIZED.

Cirrus Seven's Managed Adobe Data Workbench provides instant ROI.

Managed ADW is 40% Faster

Time Wasted Waiting for Results

Time Spent on Analysis

WE UNDERSTAND YOUR BIG DATA CHALLENGES. ON-PREMISES ADW IS HOLDING YOU BACK.

- **Cirrus Seven's Managed ADW runs 40% faster than on-premises ADW.**
- **Managed ADW makes your analysts more productive immediately.**
- **No one knows more about ADW infrastructure than Cirrus Seven. Our founders built Visual Sciences, the foundation of ADW.**
- **Find game-changing insights faster with Managed ADW.**
- **Use Cirrus Seven's BDaaS Stacks to easily and seamlessly extend your ADW analytics capabilities.**

BDAAS STACKS

EASY BDaaS DEPLOYMENT ON OPTIMIZED INFRASTRUCTURE

Managed Hadoop™ as a Service for companies who need Hadoop without its complexities or management hassles. Runs in Cirrus Seven's bare-metal environment and frees you to focus on analytics rather than IT operations.

Managed Datameer™, ParStream™, DataStax™, Adobe Data Workbench™ and a growing list of leading big data and analytics products and services, all optimized for the best performance and value.

Cirrus Seven VPC supplements your BDaaS Stacks by providing a secure, elastic cloud built to run your applications.

CIRRUS SEVEN FOR ANALYTICS

BIG DATA EXPERTISE FROM PROOF-OF-CONCEPT TO DEPLOYMENT AND BEYOND

Cirrus Seven is the leader in provisioning and operating optimized BDaaS Stacks over the entire lifecycle of big data and analytics projects.

Cirrus Seven BDaaS Stacks frees you from the capital expense such systems require. We provide the difficult-to-hire skills needed to optimize performance, and our BDaaS Stacks run faster than competitors' offerings.

BDaaS Stacks scale to easily handle high-volume, secure data acquisition systems, boost productivity, and provide the best overall return on investment.

About Cirrus Seven. Cirrus Seven provides integrated Big Data as a Service(BDaaS) Stacks built on optimized infrastructure managed by our engineers. We enable data-driven businesses to solve the most complex analytics challenges. Our leadership team has built sector-changing enterprise commerce and omni-channel analytics companies. Our engineering team has decades of experience operating secure web-scale computing platforms, delivering critical SaaS solutions to Fortune 500s, and managing some of the web's most data-intensive applications.

We work with
- Omni-channel marketers.
- Ecommerce and traditional retailers.
- Insurance and Financial Services firms.
- Healthcare analytics and IT firms.
- Organizations with sensitive information to protect.

Why choose Cirrus Seven?
- Get more value from your data, not more infrastructure.
- Our focus is operating analytics systems at scale.
- Optimized performance ensures no wasted resources.
- Prebuilt BDaaS Stacks deploy in minutes.
- Simple, transparent pricing.
